Warfighter Training Support Package (WTSP)

Manage Morale, Welfare, and Recreation (MWR) Support

 WTSP Instruction Document

Condition: The unit is on an extended deployment to an operational area. The operational tempo has subsided. Requests for MWR support are being received from subordinate units. MWR equipment and supplies are available. The theater has established in-country Rest and Recuperation (R&R) areas and authorized limited R&R allocations for areas outside of the theater. Tactical Field Exchanges (TFE) and/or AAFES Imprest Fund Activities (AIFA) are operational within the support area. Threat capabilities cover a conventional, air supported, and reinforced squad operations. This task should not be trained in MOPP4.

Standard: Available MWR resources are employed to enhance combat capability and sustain Soldier morale. Needed MWR resources are identified and requested. R&R allocations are distributed in accordance with the commanders's guidance. Resumption of combat operations or increase in other operations may require reduction of MWR activities.
